

PRODUCT DESCRIPTION - KG 5019 5M / 16FT GRIPPER PRO

The Komelon Gripper Pro tape measure has a sturdy rubber case moulded for extra grip. The Dura NY nylon coated blade offers superior quality that lasts up to 15 times longer than standard tape measures.

The ergonomically designed ABS case provides a solid grip and makes this a great tape measure for use in any trade.

The edges of the blade have been de-burred to protect against cutting the skin and the blade offers measurements in both metric and imperial graduations.

The internal spring mechanism offers a really smooth operation.

The Gripper Pro also has true zero end hook and is certified EC Class II accurate. Komelon has been making tape measures since 1963 and is a worldwide brand name. With patents including Hi Viz blades and Self-Lock to its name, it is clear that Komelon has done its homework and earned its stripes.
